Marks Gymnasieskola

We are the upper secondary school of opportunities. We have a total of just over 1,000 students, all with different experiences, dreams, and goals. We believe this makes us a better and more enjoyable school. In an environment of diversity and openness, you get to develop in the direction you want. Moreover, we offer an unusually broad range of programs. In addition to five higher education preparatory programmes, we have ten vocational programmes with numerous specializations that you can pursue as an apprentice, as well as introduction programs and adapted upper secondary education.

Everything you need – and a little more!

Students who choose to study with us, do not just get the best education. They also gain access to our extensive library with quiet study spaces, a café, common areas, student health team, youth development coaches, safety team, and more. We have a great student restaurant that serves at least two different lunch options every day – including a vegetarian option, of course. Students will also have access to amazing sports facilities, which include two large halls, a gym, running tracks, football fields, and a swimming pool.

International cooperation and exchanges

At Marks Gymnasium, we excel in exchanges with other countries, giving students the opportunity to participate in international projects both at home and abroad. Among other things, we are an Amnesty School for Human Rights and an EU Ambassador School. Students who are enrolled in a vocational program, can choose to do their workplace-based learning (APL) at an internship site in another country.

A safe school

It is important to us that students, feel safe and have a calm learning environment. All students have a mentor who supports and guides them throughout their time in high school and who they always can turn to. In addition, staff are always present in "Kunskapens gata" (The Knowledge Corridor), which runs through the entire building. The school also has a safety team that works to promote a secure environment and foster positive peer relationships.

Our programmes

Vocational Programmes in Swedish Upper Secondary School

Vocational programmes in Swedish upper secondary schools are designed to prepare students for direct entry into the workforce or further vocational education. These programs combine theoretical knowledge with practical skills and often include workplace-based learning (APL) at com-

panies or organizations. Students can choose from various fields such as construction, healthcare, technology, transportation, and more.

Upon graduation, students are qualified to work in their chosen profession but can also pursue further studies if they meet certain requirements. At Marks Gymnasieskola we have 10 different vocational programmes.

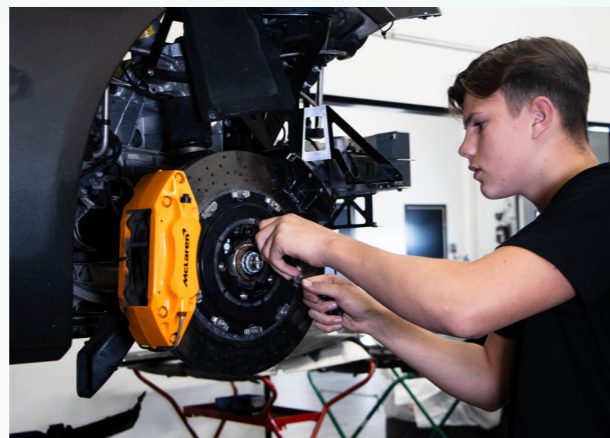

THE CHILD AND RECREATION PROGRAMME

THE CONSTRUCTION AND CIVIL ENGINEERING PROGRAMME

THE ELECTRICITY AND ENERGY PROGRAMME

THE VEHICLE AND TRANSPORT PROGRAMME

THE HAIRDRESSER AND STYLIST PROGRAMME

THE BUSINESS AND ADMINISTRATION PROGRAMME

THE INDUSTRIAL TECHNOLOGY PROGRAMME

THE RESTAURANT MANAGEMENT AND FOOD PROGRAMME

THE HVAC AND PROPERTY MAINTENANCE PROGRAMME

THE HEALTH AND SOCIAL CARE PROGRAMME

Higher Education Preparatory Programmes in Swedish Upper Secondary School

Higher Education Preparatory Programmes in Swedish upper secondary schools are designed to prepare students for higher education at universities and colleges. These programmes focus on theoretical knowledge, critical thinking, and academic skills. Students can choose from different specializations, such as natural sciences, social sciences, economics, and the arts. Upon graduation, students receive a diploma that qualifies them to apply for higher education, provided they meet the specific entry requirements of their chosen field of study. At Marks Gymnasieskola we have 5 different Higher Education Preparatory Programmes.

THE BUSINESS MANAGEMENT AND ECONOMICS PROGRAMME

THE TECHNOLOGY PROGRAMME

THE ARTS PROGRAMME

THE NATURAL SCIENCE PROGRAMME

THE SOCIAL SCIENCE PROGRAMME

Introductory Programmes

Five different introductory programs are intended to provide students who do not fulfil eligibility requirements with new opportunities. By means of these programmes, students can become eligible for a national programme, be prepared for the labour market, or progress to other forms of education. At Marks Gymnasieskola we have 4 different Introductory programmes.

MGZINE

At MG we have our own magazine. The school newspaper MGZINE is published twice a year and is produced in collaboration with second-year photography students from the arts program. Here, we write about what is happening at the school and share interesting articles and tips. You can browse MGZINE at:

www.mark.se/mgzine

FOLLOW US!

Follow us on social media (Facebook, Instagram, TikTok, and YouTube) to see what is happening here at MG! You can find more information about our school and our programs on our website:
